Problem faced by the tourist

Case studies :→ * If a person has 5 days and
Rs. 5000 then how would he
/she utilize that time & money to get
optimum solution to his/ her travel
journey.

* He would have no idea about city trends,
best restaurants, shopping areas, hangout
points & monuments to visit and funfact
about that location he is visiting.

* | Climatic condition | is also considered
to be very important aspect for preplanning
of the visit.

* If he/she has | multiple tours |
back to back then proper planning
of necessarities & best time to
visit any perticular site can not be
determined

* Which | transportation | should we take
& which is gonna be cheap &
comfortable. keeping in mind that
according to the wheather and no. of passenger

for taking care of there comfort.

* for queries and suggestions there into plateform available. & tourist have to ask it from road side vendons all information.

* which place to visit first, which site is opened now. How much is its entry fee, Duration it might take to visit it all these questions are encounted by every tourist.

* Rajasthan has immens rich history & tourist has to hire a guide to know all the fects about the places which is not reliable & economic.

* for any emergency of health or harrassment there is no plateform which is colabration of all safely & security.
